SOARING
TO NEW
HEIGHTS

**Introducing iAIRE's New
ultraJET A/C System!**

December 12, 2024

iAIRE is “**Soaring to New Heights**” with the addition of our **All New “ultraJET”** cooling unit! A/C systems like the iAIRE ultraJET system are utilized by the F.A.A. and in Military applications to cool aircraft while they are on the ground awaiting deployment or when their avionics are in need of calibration.

iAIRE’s **unique configuration** allows for **smooth airflow** at the extremely high static demands of the ducting in the aircraft, as well as quick connection to the aircraft. This, along with a “**portable**” **design**, make “ultraJET” the **best choice** for cooling aircraft all over the globe.

Features & Benefits:

- Compact and Portable Design
- High Efficiencies
- Available in multiple Capacities and Voltages
- Manufactured in the U.S.A.
- Available with iAIRE’s Patented “Solar HVAC” option

“COOL YOUR JETS!”

– with iAIRE’s “ultraJET” Aircraft Air Conditioning System
