HVAC

RENEWABLE THERMAL CONVERSION TECHNOLOGY

BY **IAIRE**

Why Developers Choose iAIRE's Solar HVAC

40% Federal Tax Credit + Accelerated Depreciation

Reduce upfront HVAC equipment costs significantly and leverage bonus depreciation for faster financial payback.

Lower Operating Costs

Patented solar thermal conversion cuts compressor load, delivering up to 50% lifetime energy savings.

Higher ROI Per Project

Increase net operating income and property valuation with a system that saves energy and qualifies for incentives.

Simple Installation

Installs exactly the same as standard HVAC—no need for specialized crews or new processes.

BECAUSE THE FUTURE OF INDOOR COMFORT IS SOLAR.

The iAIRE Advantage for Developers

- Win bids with a sustainability differentiator that investors and tenants value
- Stack incentives: federal credits + depreciation + long-term savings
- No added complexity: plug-and-play installation like conventional HVAC
- Future-proof properties with green technology eligible for federal tax credits through 2035

40% FEDERAL
TAX CREDIT

**ELIGIBLE
UNTIL 2033!**

AND CONTINUING SIGNIFICANT CREDITS THROUGH 2035.
