RENEWABLE THERMAL CONVERSION TECHNOLOGY

BY **iAIRE**

Why Multi-Family Developers Choose iAIRE's Solar HVAC

Up to 50% Federal Tax Credits (Through 2033)

Multi-family projects qualify for a higher tax incentive—up to 50%—plus accelerated depreciation to further reduce upfront costs.

Cut Operating Costs by Up to 50%

Patented thermal conversion technology slashes compressor energy use and lifetime expenses.

Stack Incentives, Maximize Returns

Take advantage of up to 50% federal tax credits, accelerated depreciation, and utility & heat pump rebates that boost ROI on every project.

Easy Integration

Installs exactly the same as conventional HVAC—no new processes, no added complexity.

BECAUSE THE FUTURE OF INDOOR COMFORT IS SOLAR.

The iAIRE Advantage for Multi-Family Homes

- Capture higher tax credits exclusive to multi-family projects
- Lower long-term energy bills and operating budgets
- Possible property tax breaks (in some states) make Solar HVAC projects more affordable
- Differentiate your properties with sustainable, federally supported Solar HVAC

50% FEDERAL
TAX CREDIT

**ELIGIBLE
UNTIL 2033!**

AND CONTINUING SIGNIFICANT CREDITS THROUGH 2035.
