RENEWABLE THERMAL CONVERSION TECHNOLOGY

BY **iAIRE**

Why iAIRE for Schools & Public Institutions?

40% Federal Tax Credit (or Direct Pay)

Offset up to 40% of equipment & installation costs—or receive a direct pay-out from the IRS—under current federal incentives through 2035.

Cut Carbon Emissions

Our green solar technology reduces CO₂ output while maintaining superior indoor comfort.

Up to 50% Energy Savings

Reduce lifetime operating costs dramatically with a system that slashes compressor energy use.

Proudly Made in Florida

Manufactured in Kissimmee, Florida, supporting American jobs and local supply chains.

BECAUSE THE FUTURE OF INDOOR COMFORT IS SOLAR.

The iAIRE Advantage for Public Institutions

- Stretch limited budgets further with federal incentives + lower energy bills
- Demonstrate environmental leadership to students, parents, and communities
- Leverage direct pay options—perfect for non-taxable entities like schools and government agencies
- Partner with a U.S. manufacturer who understands public-sector needs

40% FEDERAL
TAX CREDIT

ELIGIBLE
UNTIL **2033!**

AND CONTINUING SIGNIFICANT CREDITS THROUGH 2035.
