

MAKE YOUR HOME SMARTER, GREENER, AND MORE EFFICIENT.

ELIGIBLE FOR FEDERAL TAX CREDITS UNTIL 2035!

Save Energy. Save Money. Save the Planet.

Take control of your comfort and your carbon footprint with iAIRE's Solar HVAC system — the next generation of home heating and cooling.

Our patented Renewable Thermal Conversion Technology uses the power of the sun to assist your HVAC system, reducing energy costs by up to 40% while qualifying for federal, state, and local incentives that make going green more affordable than ever.

Solar HVAC

RENEWABLE THERMAL CONVERSION TECHNOLOGY

BY **iAIRE**

Why Homeowners Choose iAIRE's Solar HVAC

40% Federal Tax Credit

Take advantage of the Federal Investment Tax Credit, heat pump rebates, and state or utility incentives — cutting thousands off your installation cost.

Up to 50% Energy Savings

Enjoy long-term savings on your monthly energy bills while maintaining year-round comfort.

Save the Planet with Green Solar Technology

Lower your home's carbon emissions and energy use with solar-assisted HVAC that helps protect the environment.

Proudly Made in Florida

Manufactured in Kissimmee, Florida, supporting American jobs and local supply chains.

BECAUSE THE FUTURE OF INDOOR COMFORT IS SOLAR.

The iAIRE Advantage for Homeowners

- Cleaner, greener comfort for your home and family
- High-efficiency performance that pays for itself over time
- Backed by federal incentives available through 2035
- Built to last, with quality you can trust from a Florida-based manufacturer

40% FEDERAL
TAX CREDIT

ELIGIBLE
UNTIL **2033!**

AND CONTINUING SIGNIFICANT CREDITS THROUGH 2035.
