

THE WORLD'S FIRST SOLAR HVAC SYSTEM DESIGNED FOR TRUE ENERGY INDEPENDENCE.

ELIGIBLE FOR FEDERAL TAX CREDITS UNTIL 2035!

Live Green. Stay Cool. Go Solar.

Imagine heating and cooling your home or workspace using the free, renewable power of the sun—and doing it with technology that's eligible for federal tax credits through 2035.

iAIRE's Solar HVAC system brings sustainable living to the next level with patented Renewable Thermal Conversion Technology, reducing energy use by up to 40% and working seamlessly in on-grid or off-grid systems.

If you believe in smarter, cleaner, more self-reliant living—this is your HVAC system. Contact us today to learn more at sales@myiaire.com.

Solar HVAC

RENEWABLE THERMAL CONVERSION TECHNOLOGY

BY **iAIRE**

Why Renewable Energy Enthusiasts Choose iAIRE's Solar HVAC

Big Incentives, Smaller Costs

Qualifies for the 40% Federal Investment Tax Credit, heat pump rebates, and local or utility incentives—saving thousands on installation.

Up to 50% Energy Savings

Reduce grid dependence and monthly bills with efficient, solar-assisted HVAC performance.

True Green Technology

Uses solar thermal energy—not just electricity—to power your comfort and cut CO₂ emissions.

Perfect for Sustainable and Off-Grid Living

Pairs easily with solar PV systems, battery storage, and hybrid setups for full energy autonomy.

BECAUSE THE FUTURE OF INDOOR COMFORT IS SOLAR.

The iAIRE Advantage for Green Communities

- Extend your renewable system's impact with Solar HVAC integration
- Qualify for federal tax incentives through 2035
- Save money while living more sustainably
- Support U.S.-based clean energy manufacturing

40% FEDERAL
TAX CREDIT

ELIGIBLE
UNTIL **2033!**

AND CONTINUING SIGNIFICANT CREDITS THROUGH 2035.
